Safer Hosts Take Back the Night for Assault Survivors

Safer is participating in the nation's 41st annual Take Back the Night on Thursday, April 28. The local event will be held at San Luis Obispo's Mission Plaza, from 5-8 p.m. This event is free and will feature a downtown march, candlelight vigil, resource fair and artistic performances. Earlier in the day, Safer will host an on-campus march in support of survivors at 11 a.m. The walk will start in the University Union Plaza.

April 30 Is Deadline for Parking and Commuter Experiences

Share your experiences, perceptions, ideas and concerns related to campus parking and the university's transportation system through an online survey available until Saturday, April 30. Cal Poly has hired SP+ University Services to do an operational assessment concerning parking and traffic circulation. Feedback will help the consultant develop recommendations that are customer-focused and meet the daily commuting needs of the Cal Poly community — students, faculty, staff and visitors. Participants who complete the survey will be entered into a drawing for a \$250 gift card to the University Store. Find the survey at <http://bit.ly/1Te26ER>.

Christopher Miller Named PAC Managing Director

Christopher F. Miller, a veteran of Seattle theater management, was named managing director of the Performing Arts Center. Miller brings more than 31 years of experience in general management, business development, operations, patron service production and facilities management for major performing arts public assembly venues to the position. He begins his new role May 9.

Brett Holman Named ITS Senior Financial Officer

Brett Holman, director of Fiscal Services/University Controller, will transition to Information Technology Services as senior financial officer on May 1. In his new role, Holman will be responsible for acquiring, funding and sourcing for ITS and will work to develop business models for ITS services.

Saeed Niku Publishes Book on Engineering Principles

Mechanical engineering Professor Saeed Niku has published "Engineering Principles in Everyday Life for Non-Engineers." The book addresses the engineering principles that engineers use in the design and analysis of products and systems but which also play basic and influential roles in our everyday lives as well. Whether the concept of entropy, the moments of inertia, the natural frequency, the Coriolis acceleration, or the electromotive force, the roles and effects of these phenomena are the same in a system designed by an engineer or created by nature.

Catastrophic Leave for Leonor Urtiz

Leonor Urtiz, University Housing custodian, has qualified for catastrophic leave. If you wish to donate leave credits to help her remain in full-pay status during an extended leave of absence, please contact Karen Schmidt, catastrophic leave coordinator, at ext. 6-5935 or kdschmid@calpoly.edu.
