**PLEASE NOTE: The June 8 edition will be the final weekly issue of Cal Poly Report for the 2015-16 academic year. The following issue will be published June 29.**

### **Cal Poly Receives \$2.8 Million NIH Grant for Gestational Diabetes Research**

Kinesiology Professor Suzanne Phelan received \$2.8 million from the National Institutes of Health for ongoing research into ways to prevent the recurrence of gestational diabetes. This condition develops during pregnancy and can cause long-term health problems in mothers and their babies. It can also lead to severe pregnancy and delivery complications. Phelan, her fellow researchers, and a group of Cal Poly students will examine whether improving weight, eating and activity before pregnancy reduces the mother's long-term risk of diabetes and cardiovascular disease and the baby's risk of obesity. Through a five-year clinical trial, Phelan's group will track a group of pregnant women as they implement lifestyle changes such as a different diet and increased exercise. Student researchers will participate in all stages of this research, including recruitment, physical assessment of the women's weight changes and health, and data analysis.

### **Progress for the Master Plan Process**

Based on campus input, the Facilities Planning and Capital Projects Department has refined the Campus Master Plan and anticipated initial projects during the first few years of implementation. A Notice of Preparation (NOP) for the Environmental Impact Report (EIR) will be published soon. The NOP describes the project and identifies potential areas of concern to be studied in the EIR. The EIR is a document that assesses the potential effects of Cal Poly's projected development and provides recommendations for issues that may arise. During this process, Cal Poly will host a public scoping session that campus and community members are encouraged to attend. There will be other opportunities for public input, the dates of which have yet to be determined. Those interested in participating or would like to be added to the email list can submit their contact information via the Master Plan website at [masterplan.calpoly.edu](http://masterplan.calpoly.edu). Input is encouraged from all members of the campus community.

### **Vista Grande 'Retirement' Party Set for June 3**

Campus Dining is hosting a reception from 11 a.m. to 2 p.m. Friday, June 3 to retire the Vista Grande dining establishment. Faculty, staff, alumni and students are invited to enjoy light appetizers and cake to celebrate Vista Grande's 43 years of service to the campus community. Vista Grande, including VG Cafe, the Burger Bar, and Vista Grande Restaurant (previously Sage), has served as the main residential dining hall for more than 126,000 freshmen since 1973. The doors will close Monday, June 13, to allow for development of the new dining complex. The 16,899-square-foot building will be replaced with a three-story, 35,000-square-foot facility. The new building will be LEED certified and feature integrated interior and exterior dining spaces.

### **CSU Fee Waiver Benefit Available to Employees**

The fee waiver program provides eligible faculty, staff and management the opportunity to attend classes at CSU campuses at greatly reduced rates. The benefit may also be transferred to eligible dependents. For information regarding eligibility, guidelines, procedures and deadlines, visit the Administration and Finance website. For more information, contact Terizza Miller at [tmiller@calpoly.edu](mailto:tmiller@calpoly.edu) or ext. 6-7354.

### **Retirements**

**Kevin Shaw**, operations manager for Facilities Management and Development, will retire after more than 32 years of service. Facilities Transportation Services invites campus to wish him well in retirement from 10 to 10:15 a.m. Thursday, June 2, in the Transportation Services Building (No. 71) or send him an email at [eshaw@calpoly.edu](mailto:eshaw@calpoly.edu).
